FINANCIAL AND COMMERCIAL.

THURSDAY, March 26-6 P. M. Gold was active to-day, but less mercurial than yesterday. It opened at about 141, declined to 139, rallied to 140%, sold in the afternoon at 139, 1391, 1391, and closed 1391, bid. At the close a large number of orders to buy were filled, and it looked as though "the bottom" had been reached for the present. Exchange sold as low as 152 for first class bankers' bills, and closed about 152 a 154. Some leading bankers are

Peace would naturally lead to great changes in business and values; but those changes would not, as some suppose, be uniform or Peace would set free once more the great Southern staples, and hence would naturally cause a decline in cotton, turpentine, rice and tobacco. By causimported goods, such as tea, sugar, coffee, hides, foreign hardware, &c. Domestic dry goods would follow cotton in the downward course. But there is no reason for supposing that peace would affect injuriously the price of the great Northern staples or the general internal trade of the North. On the contrary, the business of the country, which has received a tremendous impetus by the manufacture of paper money, would receive a new development on the conclusion of a peace. Immigration from Europe would flow to the West at an unprecedented rate. Under the influence of the present highly protective tariff factories would spring up in every village. Under the influence of \$450,000,000 of paper money enterprises of every kind would be started and all the boundless resources of the country would be developed. With peace would come th restoration of confidence, and with that would come capital from abroad to compete with our home capital for employment. The establishment of peace would again restore the nation's energies, now devoted to the prosecution of the war, to peaceful pursuits, and the results would be com-mensurate with the increased supply of money which enterprise would be enabled to command These various visions of the future are probably premature at present; and it must always be renembered that peace would not cancel a single dollar of the \$450,000,000 of paper money affoat,

The receipts at the various agents' offices today for conversion into 5-20 bonds amounted to \$1,175,000; the receipts at the Sub-Treasury on deposit at 5 per cent to \$670,000; total, \$1,845,000. The business at the Sub-Treasury to-day was as

Nothing was decided to-day at the meeting of the Michigan Southern directors on the subject of the dividend on the guaranteed stock. The fact seems to have operated prejudicially on the price of the stock. The fact is, the directors have used the money which they had to pay up their debts to the Sinking Fund Commissioners, who have now in their possession \$650,000 of the bonds of the company, having received about \$500,000 from the directors within two years. The sinking fund is now full, and there seems no reason to doubt but the guaranteed stockholders will receive their ten per cent this year.

Money is as easy as ever. On call the brokers get all the money they want at 5 a 6 per cent. Certificates of indebtedness are steady. In first class mercantile paper there is little doing, and rates are unchanged. The paper of some dry goods jobbers and merchants who have been speculating in goods is offered at very high rates indeed.

Stocks were lower this morning than last evening, and prices were fully as much depressed as yesterday morning. Comparing the first board quotations with those of the close yesterday, we note a decline of ½ in Pacific, ½ in Central, 1 in Erie, ½ in Broker 15 and 16 and 1

her nearly in two. The second mate and steward were instantly killed, and Davis had two ribs broken. They had
barely time to get off in two boats when the Grenada sunk.
The atrange ship made no attempt to save them, but went
on her course, not even gwing her name or answering when
halled; but the language and dialect of the officers, in giving
orders, were those of Englishmen. The captain, Alfred
Scott, and crew drifted in the two boats for four days and
nights without food or water, when the English ship ConThe captain of the ship put Davis and two pressed here and
